***Which is More Complicated:
Understanding Your Golf Swing or Understanding Your Medical Coverage?***

As an EMS administrator, you may be asked to golf in a few outings per year, maybe even your own fundraising event. But often there is not even time to practice that slice or duff tendency because you have your head in the business, trying to stay on top of revenue cycle management, ICD 10 code changes, crew staffing and vehicle maintenance schedules.

In addition, as an EMS administrator, have you been asked by your board, your boss, or your staff to review your agency's health care coverage? Maybe it's the same answer! Because you have your head in the business, trying to stay on top of revenue cycle management, ICD 10 code changes, crew staffing and vehicle maintenance schedules, you don't have time to take a deep dive into how to improve your coverage and lower your expense.

This is not just a "new swing" at an old healthcare coverage problem.

The medTRANS model is much like a cooperative whereas the members own the insurance company. In addition, this program has a 9-year proven track record of being more cost-effective than a commercial carrier.

This is the chance to fix both, your golf swing and your insurance coverage, on Wednesday, September 5th, Savvik, and medTRANS will be sponsoring a "Get in the KNOW" social event at the TOP GOLF facility adjacent to the MGM Grand hotel. With more than 20 covered employees and better health insurance options, visit the event and learn more.

Join the discussion, informally, and hit a few golfs while doing so!
